

WORKSHOP & BROKERAGE EVENTS

**Addressing
Sustainable Water Management:**

**Wastewater Legislation and Technologies
Tunis, 29 October 2015**

In the framework of the Euro-Mediterranean FP7 FP4BATIW project Fostering partnerships for the implementation of best available technologies for water treatment & management in the Mediterranean, The Water Researches and Technologies Center (CERT- Tunisia) and National Agency of Environment Protection (ANPE-Tunisia), FUNDACIO PRIVADA PARC DE RECERCA (PRUAB- Spain) and INNOLABS srl-Italy), organize in Tunis on 29 October 2015 a Workshop and a brokerage event of the project.

The FP4BATIW project is a coordination and support actions to support partnerships and to implement the best water treatment technologies available in the MPC region by promoting interaction between states, both of EU and MPC.

This project will lead to new approaches, tools and innovation by integrating aspects of sustainability, enabling collaboration between experienced teams for coaching partnerships and capacity building in this area.

The workshop and brokerage events will focus on Regulations and standards for wastewater treatment and Reuse, Inexpensive and Attractive Processes for Water Treatment for Industry and Water Management in Agriculture,

These events aim to help reduce the gap between research and innovation and the water treatment market enhance collaboration and allow the build partnerships, expertise exchange and dialogue.
